

X Lambert 93 : 4 876 532,93

Y Lambert 93 : 6 249 573,29

The screenshot shows the Géoportail website interface. The main map area displays an aerial view with orange cadastral boundaries. A blue dashed line indicates a water supply line. Several green callout boxes with white text and green arrows point to specific features on the map: 'Site Canadell' (a residential area), 'Lac Canadell' (a pond), 'Cabane avec compteur d'eau' (a small structure with a water meter), 'Tuyau souterrain' (the underground pipe), 'Point de prélèvement' (the water sampling point), and 'La Baïse' (a field area). The right sidebar contains a search bar, a 'Rechercher' button, and a panel titled 'AFFICHER DES COORDONNÉES' showing the coordinates X: 486532.93 m and Y: 6249573.29 m, and an altitude of 238.69 m. Below this is the 'SYSTÈME DE RÉFÉRENCE' section with 'Lambert 93' and 'mètres' selected. The 'QUADRILLAGE' section has 'Afficher' checked. At the bottom of the map, there is a scale bar for 1:2132 and a 50m scale, and a copyright notice 'Données cartographiques : ©'.

Localisation du point de prélèvement d'eau du Baïse
